

Chippewa Hills School District

Proposal for day adjustments 3.0 2019*

**assuming the Governor signed the legislation*

Objective: to be out of school no later than June 14 (well, we lost that one)

Current days out of school: 22 full days and 1 two hour delay

May 17	half day again (PD for staff 12:00-3:15)
June 7	half day (to accommodate those that may have had plans)
June 17	half day
June 18	half day (exams)
June 19	half day (exams) - End of School

Granted 13 forgiven days (6 automatic plus 3 waiver plus new 4 emergency days) leaves 9 days to be made up

We do have additional hours thus the ability to have the half days, including the May date for PD (School Improvement recommended)

PD is calculated for each building independently, but does require the staff member to record it on the certification site for renewal purposes with principals keeping agendas and sign-in sheets as evidence if needed for audits

Make up days beyond the regularly scheduled school year require 60% attendance threshold

Days not made up or not meeting the attendance requirement result in 1/180 deduction in state funding per day based on the percentage difference of attendance and requirement
