Friday, October 20.*

## Vocabulary Words

Please make sure your child can read these words and use them in a sentence:

league, challenge,  
compete, opponent,  
possess, series, respond,  
equal

## Classroom News

We are learning many new things each day! This class is an awesome bunch of students!

## Reading

This is our last week of our friendship unit. We have been working hard identifying nouns, verbs, subjects and predicates. Ask your child to tell you about these.

## Math Corner

We are working on Module 2. This module is about measurement, rounding, place value, and two and three digit addition and subtraction.

## IXL

I am sending home a letter along with your child's Individualized IXL card. Your child may work on these math concepts at home. The website is on the letter, students use the same user names and passwords that they use here everyday. I will be giving rewards for every 10 objectives passed. Your child should be working on 3<sup>rd</sup> grade objectives unless I have put a different grade level objective on their Individualized card

## Halloween Party

I have decided to try to vary the treats at the parties this year. I have divided the class into thirds. We have 24 students in our class. I will provide the beverage and napkins. Please do not send any hard candy as I worry about students choking. Thank you!

Fruit: Anthony, Evan

Crackers: Hunter, Olivia

Cookies: Nathen, Jacklyn

Candy: Brock, Haley, Skyleena

## Important Dates
