this Friday, November 3.*

## Vocabulary Words

Please make sure your child can read these words and use them in a sentence:

except, maze, bacteria,  
hollow, stored, dweller,  
swarming

## Classroom News

The students are very excited about carnival and Halloween!! You can definitely feel the energy!

### Science

We have been learning the parts of a seed. We have planted soybean seeds and are going to graph their growth and observe changes in the plant as it matures.

### Writing

This week we have been focusing on how to write a paragraph. The students have used a hamburger graphic organizer to assure that they have an introduction, details and a conclusion. They will need to use this strategy to write complete paragraphs this year.

### Reading

We will be beginning our unit on Animals and Their Habitats next week. If your child finds any pictures or evidence of this around your area please send it in for our Concept/Question board.

### Math Corner

We continue to work on Module 2. This module is about measurement, rounding, place value, and two and three digit addition and subtraction. We have begun adding units of measurement using the standard algorithm, that is just a fancy way of regrouping and putting your carried digit on the bottom line instead of on top.

### *Halloween Party*

I have decided to try to vary the treats at the parties this year. I have divided the class into thirds. We have 24 students in our class. I will provide the beverage and napkins. Please do not send any hard candy as I worry about students choking. Thank you!

Fruit: Anthony, Evan

Crackers: Hunter, Olivia

Cookies: Nathen, Jacklyn

Candy: Brock, Haley, Skyleena

## Important Dates

October 27-Popcorn Friday &  
Carnival 5:00-8:00 pm.

October 31-Halloween Party and Parade

Feel free to contact me with any questions or concerns. I want to provide the best education possible for your child.
